

Implementation of the Amman-Berlin Declaration - Donor Profile (February 2026) -

I. Amman-Berlin Declaration

The Declaration sets out two specific targets, the second of which being:

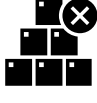

*We will strive to ensure that **at least 15 percent** of international development programs being implemented **at the country level** pursue disability inclusion as an objective (“**15 percent for the 15 percent**”).*

We will strive to achieve this target by 2028, the year in which the fourth and next *Global Disability Summit* is to be held.

To achieve this target, the donor countries that have endorsed the Declaration commit to the following:

- reporting on the number of programs on disability inclusion; and
- increasing their efforts to target disability inclusion in their portfolio

II. Key Statistics*

	Italy implemented a total of 4226 ODA activities globally.
	Italy implemented ODA activities in 48 recipient countries that have endorsed the declaration.
	There is available data for 82,6% of ODA activities funded by Italy globally.
	Disability inclusion is a target of 9,7% of ODA activities funded by Italy globally.

*All statistics in this donor profile are based on the [OECD Creditor Reporting System](#). Commitments by the donor from 2024 were analyzed. Certain modalities and sectors were not included in the calculation. The exact details can be found in the [technical note](#).
