

Implementation of the Amman-Berlin Declaration - Donor Profile (February 2026) -

• Amman-Berlin Declaration

The Declaration sets out two specific targets, the second of which being:

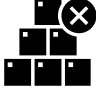

*We will strive to ensure that **at least 15 percent** of international development programs being implemented **at the country level** pursue disability inclusion as an objective (“**15 percent for the 15 percent**”).*

We will strive to achieve this target by 2028, the year in which the fourth and next *Global Disability Summit* is to be held.

To achieve this target, the donor countries that have endorsed the Declaration commit to the following:

1. reporting on the number of programs on disability inclusion; and
2. increasing their efforts to target disability inclusion in their portfolio

II. Key Statistics*

	France implemented a total of 9318 ODA activities globally.
	France implemented ODA activities in 48 recipient countries that have endorsed the declaration.
	There is available data for 78,4% of ODA activities funded by France globally.
	Disability inclusion is a target of 5,2% of ODA activities funded by France globally.
<p><small>*All statistics in this donor profile are based on the OECD Creditor Reporting System. Commitments by the donor from 2024 were analyzed. Certain modalities and sectors were not included in the calculation. The exact details can be found in the technical note.</small></p>
